Letter to Editor in *The Pilot*

MRW President Maureen Zumwalt sent a Letter to the Editor to The Pilot, who printed it but edited it, most likely to dilute the message. Here is the full text of the original:

Republican Appointees to Board of Elections Are Well Qualified

The Moore County GOP nominated Susan Adams and Martin Carpenter to the Moore County Board of Elections. Both Adams and Carpenter are excellent, experienced choices.

Adams has 30 years of experience working with elections in Moore County. She has served as poll worker, precinct judge, chief judge and has served previously as the Chairman of the Board of Elections. Carpenter's credentials are likewise impressive.

Carpenter is a retired Air Force Colonel who holds a Bachelor's in Science from the US Naval Academy and a Master of Science in Administration from Pepperdine University. He has served on various local and state boards, and currently serves on the Moore County Board of Elections.

In America, the power of government is derived exclusively from "We the People" rather than from bureaucrats or politicians or royalty or military might. "Taxation Without Representation" is the oft-quoted justification for our War of Independence from England. It should be no surprise then that the right to vote is revered and fundamental to the American system of government.

We know that elections can be contentious. But the process should not be. As long as these two axioms are followed, everyone should walk away from an election believing that their voice was heard:

- (1) elections should be conducted in a transparent process and
- (2) it should be easy to vote and hard to cheat.

With the appointment of Susan Adams and Martin Carpenter to the Moore County Board of Elections, Moore County voters can be assured that the Moore County GOP is doing its part to safeguard election integrity and protect your right to vote.
