## Gordon Chang speaks at April luncheon

**"You guys rock!" exclaimed speaker Gordon Chang after listening to announcements before his speech. "You are warriors, and the flame of freedom shines bright in this room!"**

An internationally acclaimed expert on China, Gordon was our very special guest at the MRW luncheon on April 5. Among many other things, he shared that:

- The Chinese Communist Party (CCP) sees the US as an existential threat because of who we are - our American values and form of American government.
- China's ambition is breathtaking - it isn't trying to compete with us; it wants to overthrow us. Chinese president Xi Jinping believes it's "one ruler, one world."
- The CCP is using three key tactics to accomplish our overthrow - Disease, Subversion and Fentanyl.
- China has its own internal crises to deal with including debt defaults, stagnation, food shortages, disease outbreaks and demographic decline. Xi has no idea how to fix these problems so he needs an enemy to fight and distract his people.

### **What can MRW members do?**

We must each create "bottom-up pressure" to change our relationship with China:

- Tell your broker to sell stocks of Chinese companies. Sell mutual funds that include these companies.
- Look before you shop - don't buy things made in China.
- Push for "COOL" (Country of Origin Labeling) for websites: Products sold on the internet should be required to reveal their country of origin (not the case now).

We encourage you to read Mr. Chang's book, [The Coming Collapse of China](#).

### *Other speakers:*

Gordon Chang's wife Lydia played a key role in getting him to speak to MRW - and also had a few important things to say about China, as well!

Judge Jefferson Griffin said he will be running for the NC Supreme Court. A victory on his part would give us a 100% conservative margin of 7-0.

Nick Picerno, Chairman of the Moore County commissioners, announced that the commissioners just passed the Sanctity of Life Resolution and an Anti-Discrimination resolution. He also said that, while people's property values have gone up dramatically, the county's property tax rates have been cut so owners will not experience a major increase.

Lisa Sheridan and the rest of MRW wished Mariann Benway, long-time key member of the MRW leadership team, a very happy birthday!

## NC Democrat switches parties...

### ...and hands the state legislature a veto proof super-majority

Great news! Tricia Cotham, NC House Representative from very blue Meckenberg County, announced on Tuesday that she is switching her party affiliation from Democrat to Republican.

She expressed dissatisfaction with the Democrat Party, saying she felt "bullied" by other members in the party. "The party wants to villainize anyone who has free

thought. If you don't do exactly what the Democrats want you to do, they will try to bully you, they will try to cast you aside."

Welcome, Tricia, to the Republican Party and the return to sanity!

## STOP TicToc legislation now being discussed

Everyone knows something has to be done about the dangerous Chinese social media site, TikTok.

However, the legislation currently being discussed is DRACONIAN - it basically allows the Biden administration to regulate speech on the the internet and threatens everyone's First Amendment rights. Read all about it [here](#) and [here](#).

Gordon Chang, our speaker at the April lunch (see above), said that President Biden has the power to ban TikTok nationwide by himself without need for legislation.

**Call Thom Tillis**, who once again is on the wrong wide of the argument and is supporting this bill that will restrict "misinformation" and free speech, all in the name of banning TikTok.
