

President's Message by Pauline Bruno

One of the most dangerous trends in our country is that of "cancel culture," where people's lives and reputations are destroyed because they say or do things that go against the approved liberal messaging.

I say: Let's STAND UP and say what needs to be said! STAND UP and refuse to be silenced. STAND UP for all the freedoms that are now being threatened.

That's why I wrote the following Letter to the Editor, which was published recently in *The Pilot*:

STANDING UP

I totally agree with the ideas of Freedom Matters NC. Americans are not a people to take orders and blindly follow anyone and their directions. We are free-spirited.

This all has to stop. We went from the best economy in 50 years to shutting down businesses, taking children out of school, and making people so fearful of each other. Look at the closed businesses in our own community. How many more does The Pilot want to see?

What about our children? The O'Neal School has been in session since last August with no problems. We all need to stand up. Americans are not sheep.

MRW is standing up in every way we can think of to increase freedom and decrease "cancel culture." Thank you for doing your part!

Pauline

MRW Action Item of the Month:

In the past month, Democrats in the House passed HR1, a sweeping voting and elections bill, without one Republican voting for it. It now advances to the Senate, where it is called S1. Here is a synopsis of the monstrous legislation, which would drastically change our election laws: [House passes radical HR1 Election Bill](#).

In addition, Nancy Pelosi introduced and passed new legislation that purportedly affords the LGBTQ+ community protections against discrimination. Here, the Heritage Foundation explains [The Equality Act](#) and its terrible effects.

Here's what we ALL need to do:

Call and/or email Senators [Richard Burr](#) (202-224-3154) and [Thom Tillis](#) (202-224-6342) about both bills and tell them to vote NO and tourge Senators Joe Manchin (WVA) (202-224-3954) and Krysten Sinema (AZ) (202-224-4521) to listen to their

issues (Murkowski, others) and tell them to vote NO. [Call other Senators](#) who typically waffle on conservative issues (Murkowski, others) and tell them to vote NO.

We need to make it known that conservative voters are strongly against these radical bills.
