

NC Republicans did it !

Democrats had ruled North Carolina for 100+ years. In 2012, the NC top income tax rate was 7.75%. The standard deduction for a married couple was \$6000. North Carolina had a \$2 billion deficit and didn't rank high as a desired place to live in or work.

In 2026, after 14 years of Republican legislative and judicial leadership,

- ★ The top income tax rate is **3.99%**.
- ★ The standard deduction for a married couple is **\$25,500**.
- ★ The state surplus is **\$2 billion** with a rainy day fund of **\$3.6 billion**.
- ★ NC is a **top five** state for new investment, new jobs, and quality of life.

Republicans are pro-life, passing laws to

- Protect born-alive infants
- Limit abortion at 12 weeks, down from 20
- Prohibit abortion based on race or Down's syndrome

Republicans are pro-family, passing laws to

- Create a parents' Bill of Rights
- Put limits on gender ideology
- Expand parent options for child education through Opportunity Scholarships
- Add protections for women and minors from sexual exploitation

Republicans are pro-election integrity, passing laws to

- Require photo id to vote
- Institute a constitutional amendment that only citizens can vote in NC elections
- Implement voting process controls and auditability

Conservative judges on the Appeals Court and Supreme Court have consistently affirmed these common-sense, constitutional laws.

Tax-weary Americans are voting with their feet, fleeing blue states for Republican-led Southern states with lower taxes, safe neighborhoods, greater personal freedoms.

Decay is not inevitable – it's a choice.

Choose lower taxes, fiscal responsibility, constitutional judges, school choice, protection for girls and women, lower crime – common sense values!

****Vote Republican in November!
Vote Republican the entire ballot**!**
